SERHS INCLUSIVE:

Our differences. See why our SERHS Inclusive is much better than a standard All-Inclusive.

Waiter service: We attend to the customers and take their orders to their table. In a standard All-Inclusive, it is self-service, where customers pick up their orders directly at the bar or buffet.

À la carte restaurant: Customers can use it every day, subject to availability at the restaurant. We guarantee a full 3-course service (appetizer, main course, and dessert). In a standard All-Inclusive, access is limited according to the duration of the stay.

Room service: We have a 24-hour service available, charged according to consumption. In a standard All-Inclusive, room service is not available.

Premium products: In addition to the included items, we also offer premium products for an additional fee. In a standard All-Inclusive, the product selection is limited to what is included, with fewer brand options for the same product.

SPA: Customers receive* a 25-minute massage and a day of water circuit per adult/reservation (subject to availability/schedule between 1 pm - 4 pm). In a standard All-Inclusive, spa services are not available.

**Condition not valid for group negotiations and events.*
